

Sprint IP Relay Mobile App: How to Change Text Size and Color

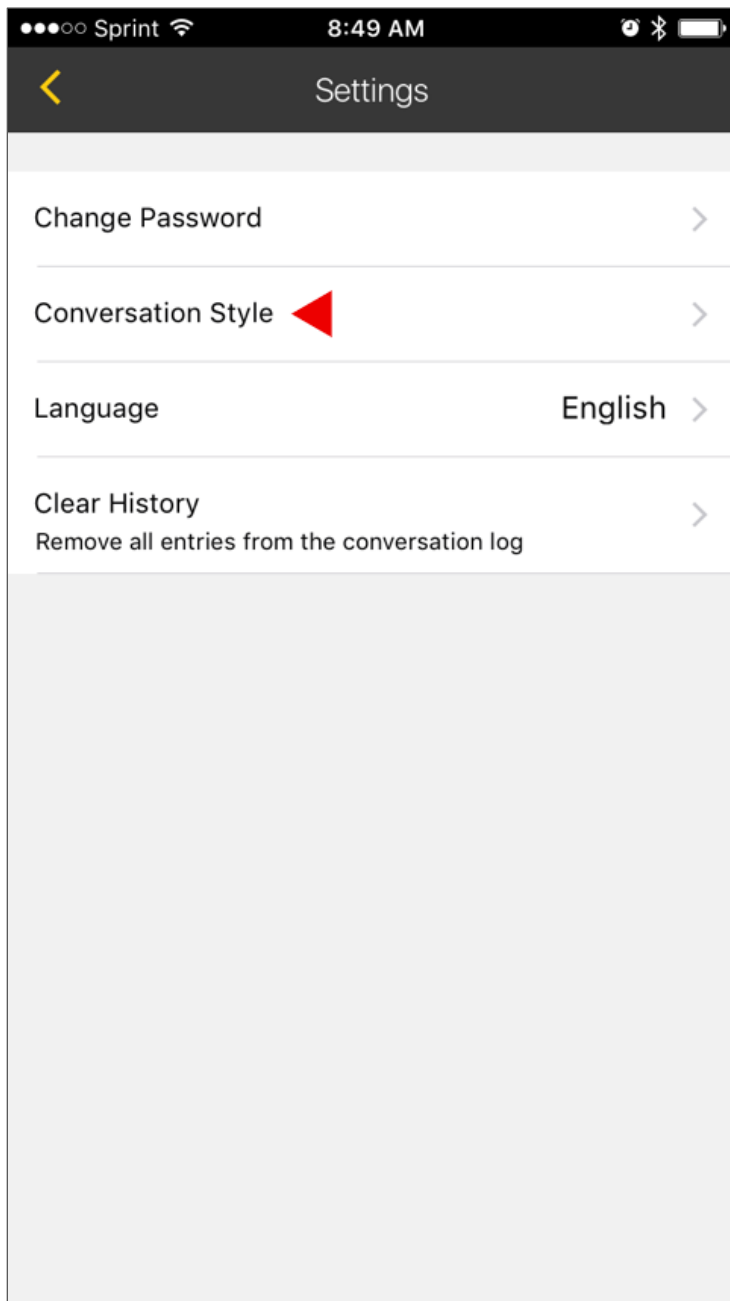

1. On the Sprint IP Relay Mobile App Call Screen, tap a MENU icon on the upper left.

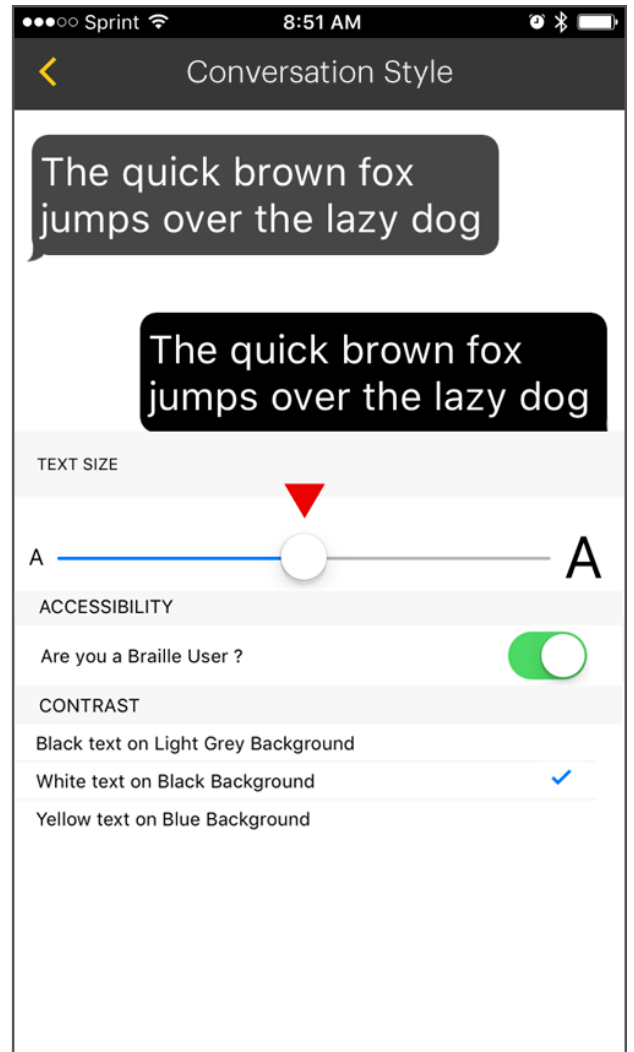

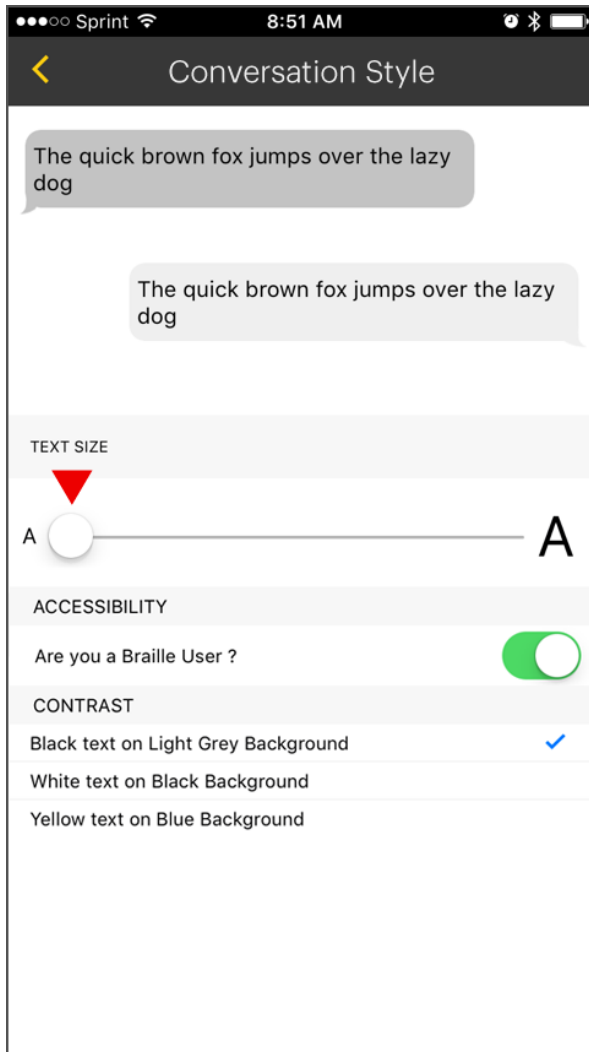

2. On the Menu page, tap SETTINGS.

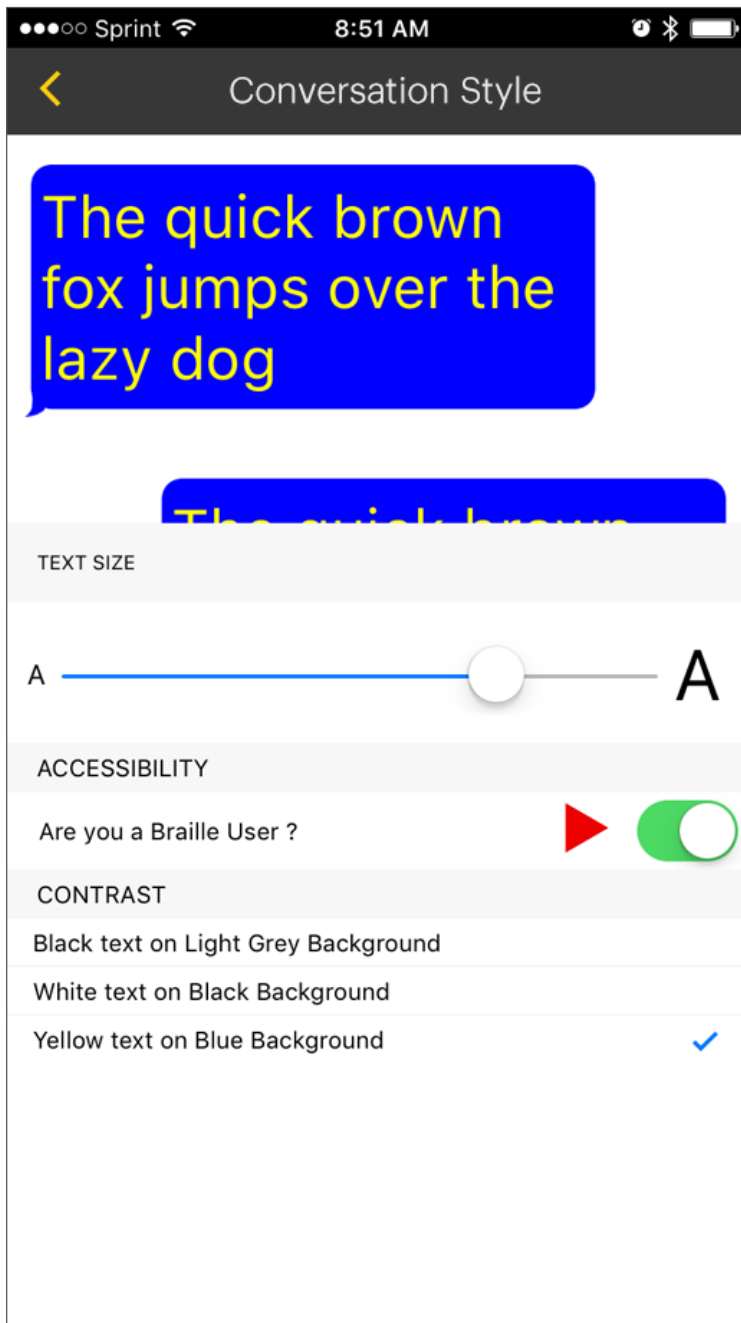

3. On the Settings page, tap CONVERSATION STYLE.

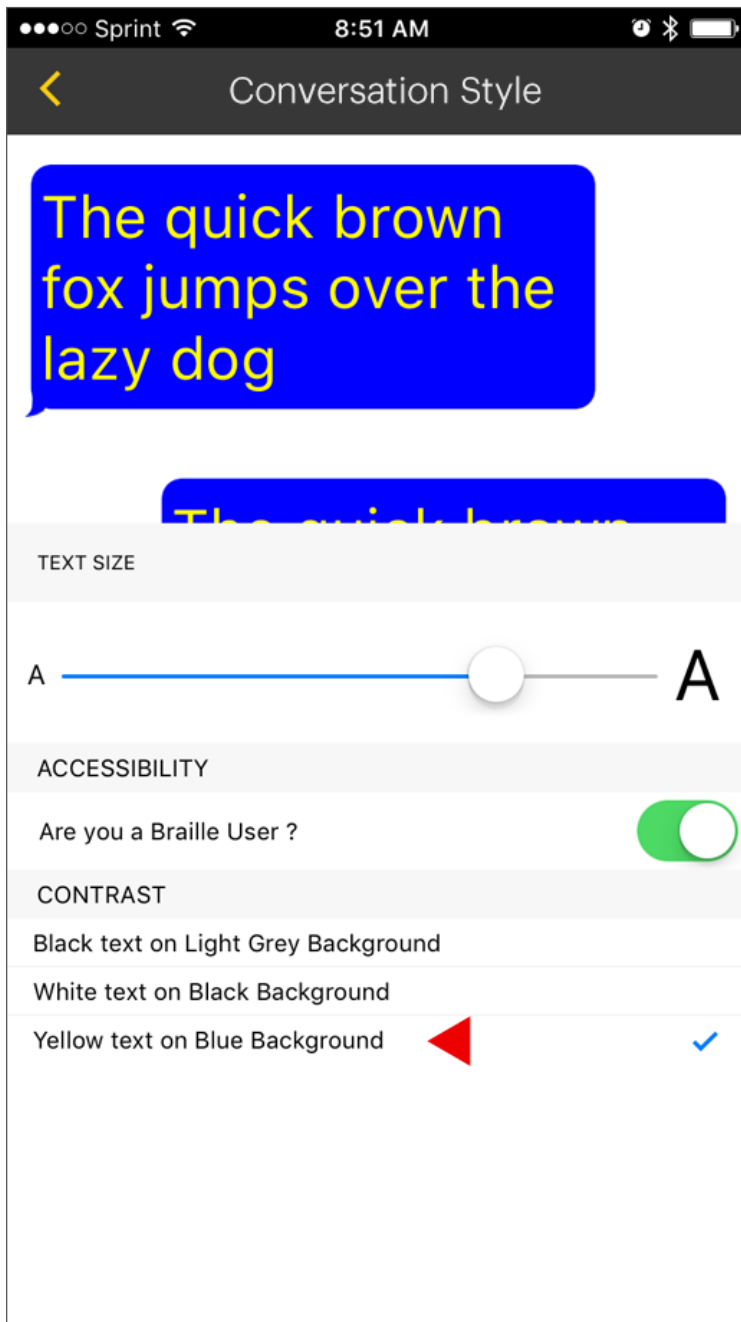

4. To adjust text size, drag a slider to the right to increase text size.

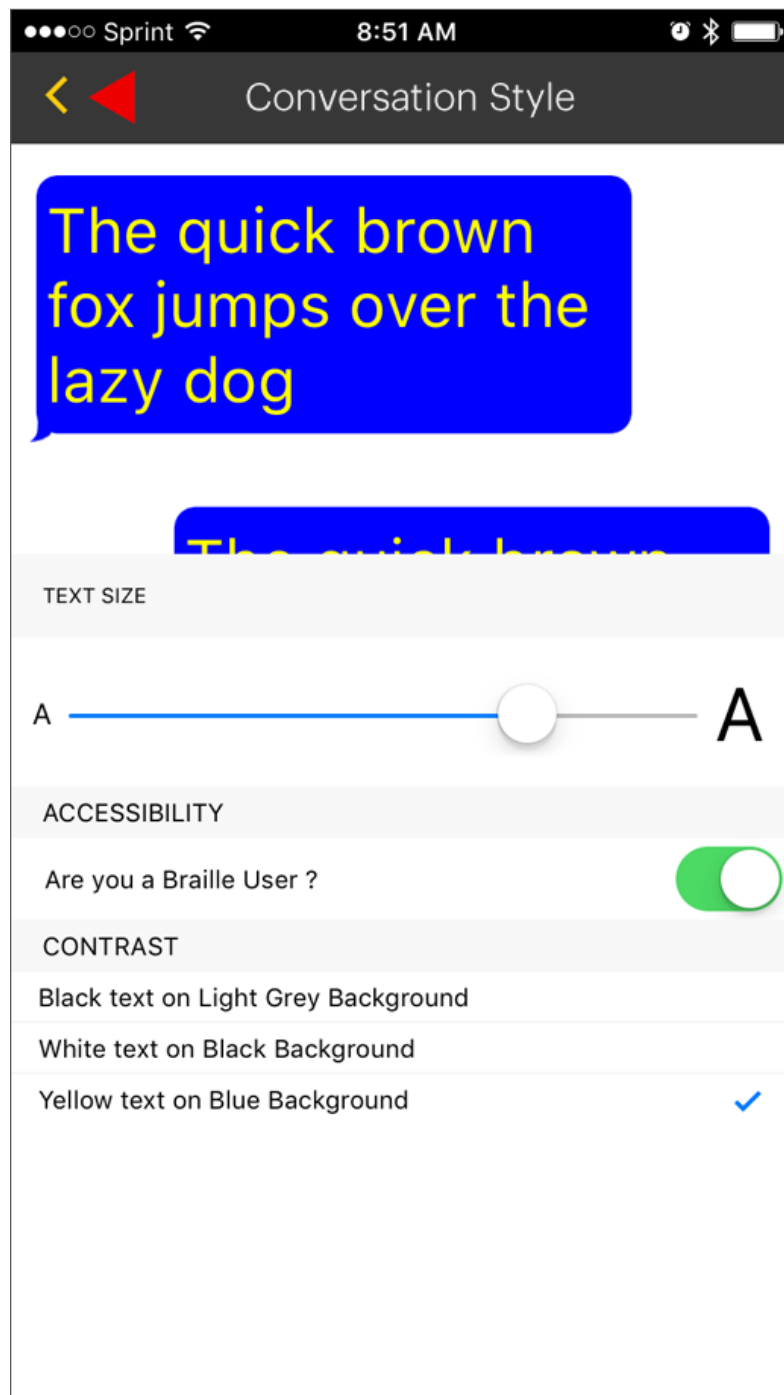

5. On the ACCESSIBILITY area, tap to turn on if you are using Braille.

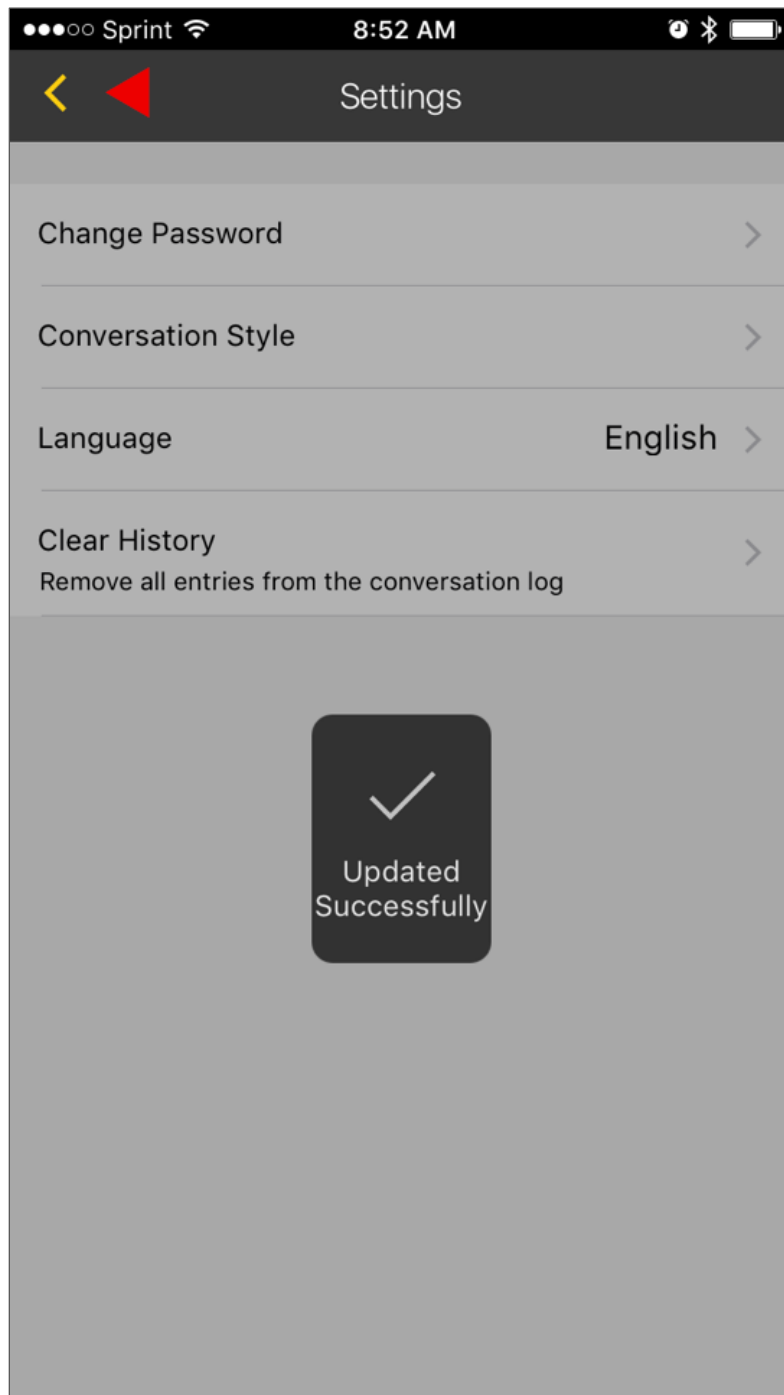

6. On the CONTRAST area, tap one of three options as followed
- Black text on light grey background
 - White text on black background
 - Yellow text on blue background.

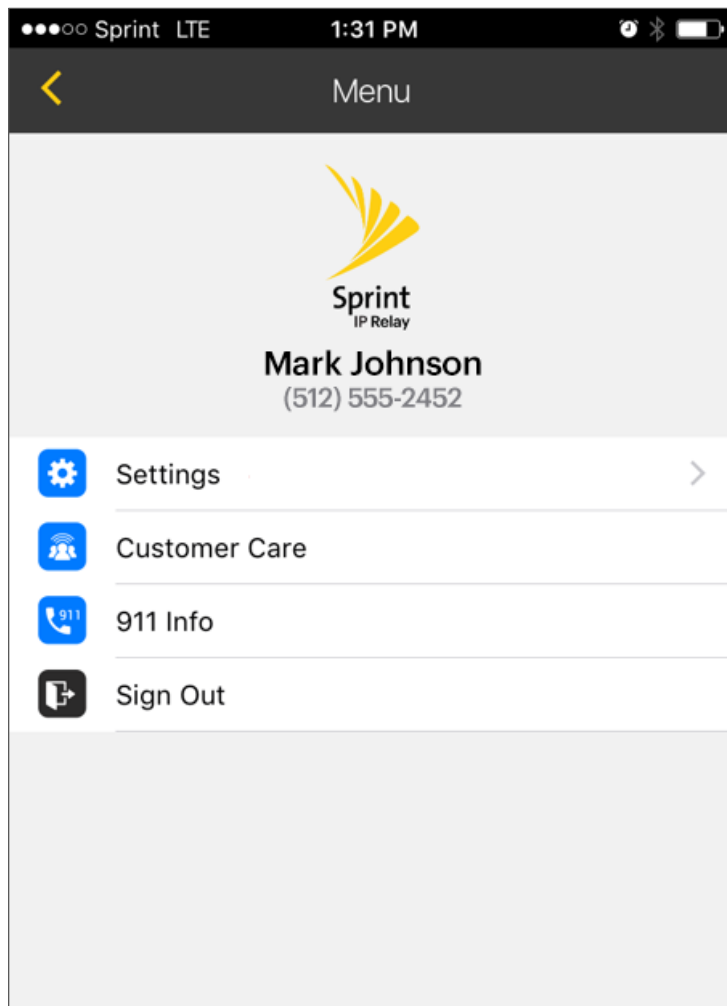

7. When the selections are complete, tap the back arrow to go back to the SETTINGS.

8. An “UPDATED SUCCESSFULLY” message appears. Tap the back arrow once again to go back to the main Call Screen.

9. You are all set with the CONVERSATION STYLE selection.

Sprint IP Relay Service is a free service offered to individuals who are Deaf, Hard of Hearing, DeafBlind, and have a Speech disability that allow them to place relay calls over the Internet between locations in the United States (including its territories). Available only in USA and US territories. International calls will either be blocked or terminated. Although Sprint IP Relay can be used for emergency calling, such emergency calling may not function the same as traditional 911/E911 services. By using Sprint IP for emergency calling, you agree that Sprint is not responsible for any damages resulting from errors, defects, malfunctions, interruptions or failures in accessing or attempting to access emergency services through Sprint IP; whether caused by the negligence of Sprint or otherwise. Other restrictions apply. For details, see sprintrelay.com
