

On behalf of the DWCC, I would like to state that we are participating in this proceeding - CRTC 2024-288.

As per the accessibility regulations, DWCC requests that ASL interpreters and CART are made available for our attendance at the public hearing on March 31, 2025.

There will be a minimum of three panelists attending on behalf of DWCC.

Deaf, DeafBlind and Hard of hearing have been left out of the broadcasting industry for far too long. It is time that we participate to get our voice forward.

We will file an intervention to answer the proceeding questions by the new deadline agreed by the CRTC.

Best regards,

Jeff Beatty
Chairperson
Deaf Wireless Canada Committee (DWCC)
